

# CLIMATE ACTION BINGO

Are you up for the climate challenge?

Bring a litterless lunch to school

Search clothing labels in your home for a Canada Made item

Ask a climate question to an adult at home. ex. What do you know about climate change?

Find a way to reduce electricity in your home

Watch an environmental documentary

Time how long a regular shower takes. Reduce the time.

Take a nature walk

Upcycle something (make something from something else)

Find a company/business that cares about the environment. What do they do?

Find a local food item in your home

Make a meatless meal

Buy something 2nd hand that you would have bought new

**FREE SPACE!**

Screenless Evening

Repair/Re-use an item you would normally throw away

Find a song about the environment

**NEW**  
Walk or Bike to school

Calculate how many km your favourite meal travels.  
List the ingredients. Find out what country each ingredient is produced. Find how many km away that country is.

Be plastic Free for a day

Write an email/letter to a local leader about taking climate action

Adjust your thermostat at home to save energy

Map your route to school. Add as much detail as you can - classmates homes, bike lanes, sidewalks, crosswalks, etc.

Find a local organization taking climate action. What do they do?

Interview a senior  
Have they seen changes in the climate. Ask them about changes in grocery stores, food, transportation, waste, or their home growing up.

Set up a carpool to an evening activity
